THE COMPLETE SERMA TOUR

From admission to graduation, everything connects.

Thirteen workflows on a single database: every office, every campus and every faculty member works from the same information.

Admission · Program · Schedule · Attendance · Results · Diploma

01 Admissions and enrollment

From pre-registration to confirmed enrollment: documents checked, approvals, first payment and student ID assigned.

Re-enrollment · **Excel import**

02 Programs made simple

Programs, semesters, course units and subjects created in 4 steps from templates; faculty assigned, next year prepared.

Tree view · **Credits per course unit**

03 Class scheduling and recurring sessions

Weekly sessions set up as recurring series; room, faculty and group clashes detected before anything is saved.

One session, the following ones or the whole series

04 Attendance

Roll call in seconds on a phone, even offline, or on a printed attendance sheet that is entered later.

Absence excuses · **Absence thresholds**

05 Grading, results and exam boards

Grades entered, then published; averages, credits, compensation and honors computed by your own rules; resit sessions.

Letters, GPA, percentages, 20-point scale · **Transcripts and minutes**

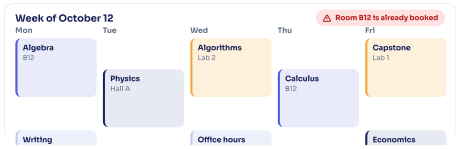

06 Diplomas, certificates and documents

Certificates, transcripts and diplomas in English, French or Arabic, each one verifiable online with a QR code.

Block-based templates, no code

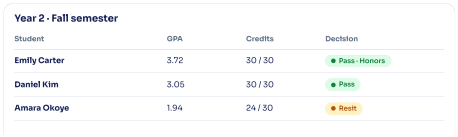

This week's class schedule

Clashes flagged before anything is saved

Semester exam board

Averages, credits and honors computed

Tuition, oversight, integrations: continued on the back

Full tour · **serma.app**

MANAGE, OVERSEE, SECURE

Your whole institution, in one place

07 Tuition, fees and payments

Fee schedules, payment plans, discounts and scholarships in your institution's currency; automatic receipts and reminders.

Bank card · Mobile money

08 Faculty pay, explained

The month's workflow in plain sight: line-by-line calculation, flagged anomalies, a simulator and batch approval.

"My hours" for faculty

09 Student and faculty portals

Students: class schedule, grades, documents, payments, excuses. Faculty: roll call, grades and hours taught.

Installable app

10 Dashboards and reports

A role-based dashboard with key figures, alerts and quick actions; a catalog of reports and automatic reminders.

Excel and CSV export

11 Fits your country and your rules

Languages, currency, time zone and student ID format configured; lists and reports ready for your official reporting.

English · Français · العربية

12 Integrations

Google or Microsoft sign-in; Moodle for courses, accounts and grades; Microsoft Teams meetings for online sessions.

Public API · Webhooks

13 Security, archiving and traceability

Data isolated per institution, two-factor sign-in, roles and permissions, backups and a recycle bin you can restore from.
